EXPERIENCE

Cross Creek Deluz, Ca— Greenskeeper

June 2024 - October 2024

Lieder Development Ontario, Ca — *Machinist*

EDUCATION

University of San Diego, San Diego — *Computer Science*

August 2022 - Current

PROJECTS

Risc-v 5 stage Pipelined Processor:

Written in System Verilog, this is a simulated Risc-v Processor with hazard control.

Automata Compiler:

Written in Python3, this utilizes Automata Theory with regular language state machines and context free grammars to break the contents of files into tokens.

Chess Bot:

Written in Python3, this project relies heavily on object oriented programming and the minimax algorithm for decision making.

SKILLS

Created and designed wave guides-CNC Machines

Shop Maintenance

Cleaned and maintained Equipment

Excellent Customer Service

Strong Organizational Skills

Advanced Computer System Skills

Customer Service

Store Maintenance

AWARDS

• 3.7 GPA

• National Honors Society CTE
2022, 2023

• CTE Department Award
